**Press Release**

**MYTILINEOS builds the largest data center in Greece**

**Athens, Greece – 2 February 2022** – MYTILINEOS (RIC: MYTr.AT, Bloomberg: MYTIL.GA, ADR: MYTHY US) through its Sustainable Engineering Solutions Business Unit undertakes the construction of the largest data center in Greece.

Athens-3 (ATH3), as it will be called, will be the new, state-of-the-art data center of Lamda Hellix, A Digital Realty Company, at the company's premises in Koropi. This project is to be added to the already existing Athens-1 & Athens-2 (ATH1 & ATH2) and will be the largest data center in Greece, covering an area of 8,600 sq.m building facilities. ATH3 will be constructed according to Tier III standards and will be LEED certified.

ATH3 would be supplied 100% with green energy, minimizing the environmental footprint of this investment. Its capacity will reach 6.8MW, while the first phase of the project is expected to be completed in December 2022.

The Sustainable Engineering Solutions Business Unit of MYTILINEOS continues to grow dynamically in markets with high demand for execution of complex technical projects, capitalizing on 20 years of experience in similar projects. The collaboration with Digital Realty, one of the largest companies in the data center market with over 290 facilities in 26 countries, highlights a new dynamic while adding to a continuously growing portfolio of high value-added projects.
